Call for Papers

American Journal of Climate Change(AJCC)

ISSN: 2167-9495 (Print) **ISSN: 2167-9509 (Online)**
https://www.scirp.org/journal/ajcc

American Journal of Climate Change (AJCC) is an international scientific journal dedicated to the publication of high-quality research articles, short communications and review papers on all aspects of climate change and related areas. The objectives of this journal are to chronicle the important publications in the rapidly growing field of climate change and to stimulate research in the area.

Subject Coverage

All manuscripts must be prepared in English, and are subject to a rigorous and fair peer-review process. Accepted papers will immediately appear online followed by printed hard copy. Topics to be covered by this journal include, but are not limited to the following fields:

- Advanced Statistical Tools and Methods in Climate Change
- Air Pollution and Climate Change
- Atmospheric and Marine Sciences
- Boundary-Layer Meteorology
- Climate and Earth System Modeling
- Climate Change Economics
- Climate Dynamics
- Climate Policy
- Earth Observation and Data Assimilation
- Environmental and Resource Science
- Global Change Ecology
- Hurricanes and Other Extreme Events
- Hydrology and Limnology
- Impacts of Climate Change on the Cryosphere
- Meteorology and Atmospheric Physics
- Natural and Anthropogenic Climate Forcing Attribution
- Numerical Methods in Climate Research
- Paleoclimate Analysis and Interpretation
- Remote Sensing & Geoinformatics
- Renewable Energy
- Sustainable Agriculture, Forestry, and Soil Science
- Sustainable Development
- Theoretical and Applied Climatology
- Volcanology

We are also interested in: 1) Short Reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book Reviews—Comments and critiques.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

What is SCIRP?

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
