

Special Issue on Business Decision, Process and Activity

Call for Papers

Business process is a series of logically related activities which serve a certain business purpose. According to the different functions and management scope, the process management of an enterprise is generally divided into four levels: production process level, operation level, planning level and strategy level. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of Business Decision, Process and Activity.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Business Decision, Process and Activity**. Potential topics include, but are not limited to:

- Business decision of enterprise
- Process quality and efficiency evaluation
- Processes optimization
- Promotion decisions
- Business activity and influences
- Business decision making
- Business decision and economic analysis
- Business process modelling
- Business decisions and business rules

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Industrial Economics and Sustainable Development**” should be selected during your submission.
