

Special Issue on Plant Reproduction

Call for Papers

Plant Reproduction is the production of new individuals from one or more parent plants. This can be accomplished by sexual or asexual means.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring **plant reproduction**. Potential topics include, but are not limited to:

- Pollination and pollinators
- Selfing and outcrossing
- Double fertilization
- Asexual systems
- The seed and fruit
- Bryophyte reproductive systems
- Plant reproduction system and evolution

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal at [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue – Plant Reproduction**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	June 28th, 2017
Publication Date	August 2017
