

Special Issue on Plant Ecology

Call for Papers

Plant Ecology, as an integral branch of ecology, delves into the intricate relationships between plants and their environments, as well as among plants themselves. This discipline explores a wide range of topics, from the adaptive strategies of individual plants to the structure and dynamics of plant communities within larger ecosystems. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in this area of **plant ecology**.

In this special issue, we invite front-line researchers and authors to submit original research and review articles that explore **plant ecology**. In this special issue, potential topics include, but are not limited to:

- Plant community ecology
- Plant population ecology
- Plant functional ecology
- Plant-herbivore interactions
- Plant-microbe interactions
- Plant conservation and restoration ecology
- Global change ecology
- Human influences on plant communities
- Seed and seedling ecology
- Physiological ecology of plants
- Plant ecological strategies
- Restoration ecology of plants

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue –Plant Ecology**” should be selected during your Submission.

Special Issue timetable:

Submission Deadline	September 15th, 2024
Publication Date	November 2024

Guest Editor:

Scientific Research
Open Access

**American Journal of
Plant Sciences**
ISSN Online: 2158-2750
