Volume 5 Number 16

September 2014

Effects of Layer Thickness and Edge Conditions to Thermoelastic Characteristics on Thermal Barrier Coatings

J. Go, J.-H. Lee.....2417

Pricing Study on Two Kinds of Power Options in Jump-Diffusion Models with Fractional Brownian Motion and Stochastic Rate

J. Li, K. L. Xiang, C. Y. Luo.....2426

General Topology of the Universe

A. Pandya.....2442

Development and Application of a Modified Genetic Algorithm for Estimating Parameters in GMA Models

J. A. Hormiga, C. González-Alcón, N. V. Torres.....2447

Discrete Differential Geometry of n -Simplices and Protein Structure Analysis

N. Morikawa.....2458

Embeddings of Almost Hermitian Manifold in Almost Hyper Hermitian Manifold and Complex (Hypercomplex) Numbers in Riemannian Geometry

A. A. Ermolitski.....2464

On the Connection between the Hamilton-Jacobi-Bellman and the Fokker-Planck Control Frameworks

M. Annunziato, A. Borzì, F. Nobile, R. Tempone.....2476

Entanglement and Quantum Discord of Two Moving Atoms

N. Zidan.....2485

Compound Means and Fast Computation of Radicals

J. Šustek.....2493

Multiple Endemic Solutions in an Epidemic Hepatitis B Model without Vertical Transmission

N. O. Onyango.....2518

On Universal Space and Time

C. P. Viazminsky, P. K. Vizminiska.....2530

Asymptotic Harmonic Behavior in the Prime Number Distribution

M. H. P. M. van Putten.....2547

Robust Optimization for Gate Sizing Considering Non-Gaussian Local Variations

J. Sun, J. M. Roveda.....2558

The Connection between the Basel Problem and a Special Integral

H. F. Xu, J. R. Zhou.....2570

**A Geometric Approach to the Design of Serial and Parallel Manipulators
with Passive Joints**

C. D. Pham, P. J. From, J. T. Gravdahl.....2585

**Some Lacunary Sequence Spaces of Invariant Means Defined by Musielak-Orlicz Functions on
2-Norm Space**

M. Aiyub.....2602

**Heat, Resolvent and Wave Kernels with Multiple Inverse Square Potential on
the Euclidian Space \mathbb{R}^n**

M. V. O. Moustapha.....2612

**Profile Matching in Electronic Social Networks Using a Matching Measure for
Fuzzy Numerical Attributes and Fields of Interests**

A. de Vries.....2619

**Geometroynamical Analysis to Characterize the Dynamics and Stability of
a Molecular System through the Boundary of the Hill's Region**

A. Vergel, R. M. Benito, J. C. Losada, F. Borondo.....2630
