TABLE OF CONTENTS
Volume 3, Number 1, January 2012

Liver cytochrome P450 system as affected by endophyte-infected tall fescue seed extracts and ergot alkaloids
A. S. Moubarak, Z. B. Johnson, C. F. Rosenkrans Jr. ........................................................................................................1

Study on efficacy of Probiotic in Broiler Chickens diet
S. M. Seyed Mehdizadeh Taklimi, H. Lotfollahian, A. Z. Shahne, F. Mirzaei, A. Alinejad .......................................................5

Effects of zinc and nitrogen fertilizer and their application method on yield and yield components of Phaseolus vulgaris L.
F. Salehin, S. Rahman .........................................................................................................................................................9

Evaluating host plant resistance in cotton (Gossypium hirsutum L.) with varying gland densities to tobacco budworm (Heliotis virescens F.) and bollworm (Helicoverpa zea Boddie) in the field and laboratory
J. A. Scheffler, G. B. Romano, C. A. Blanco ......................................................................................................................14

Occurrence of Fusarium species and associated T2-toxin in Kenyan wheat

Managing irrigation of fruit trees using plant water status
R. Al-Yahyai ...........................................................................................................................................................................35

Cereal-forage crop rotations and irrigation treatment effect on water use efficiency and crops sustainability in Mediterranean environment
P. Martiniello ...........................................................................................................................................................................44

Evaluation of pan coefficient equations in a semi-arid Mediterranean environment using the ASCE-standardized Penman–Monteith method
V. G. Aschonitis, V. Z. Antonopoulos, D. M. Papamichail ................................................................................................58

Multienvironmental evaluation of wheat landraces by GGE Biplot Analysis for organic breeding
K. Koutis, A. G. Mavromatis, D. Baxevanos, M. Koutsika-Sotiriou ......................................................................................66

Fuzzy comprehensive evaluation of five forage shrubs in Mu Us sandland, China
D. M. Xu, X. Z. Xu, H. B. Ma, Y. Shen ............................................................................................................................75

Accumulation of the betaine and ectoine in osmotic stress adaptation of biocontrol agents against Fusarium verticillioides in maize
M. Sartori, A. Nesci, N. Magan, M. Etchevery ..................................................................................................................83

Comparative evaluation of modified neem leaf, neem leaf and woodash extracts on soil fertility improvement, growth and yields of maize (Zea mays L) and watermelon (Citrullus lanatus) (Sole and Intercrop)

E. I. Moyin-Jesu..................................................................................................................................................90

Metagenomic profiles of soil microbiota under two different cropping systems detected by STRs-based PCR

M. Zaccardelli, D. Villecco, F. Campanile, C. Pane..................................................................................................98

Organic carbon dynamics and enzyme activities in agricultural soils amended with biogas slurry, liquid manure and sewage sludge

B. Stumpe, S. Werner, R. Jung, S. Heinze, E. Jüschke, C. Strippel, B. Marschner..........................................................104

Resilience, reliability and risk analyses of maize, sorghum and sunflower in rain-fed systems using a soil moisture modeling approach

B. F. Alemaw..................................................................................................................................................114

Biomass energy resources utilisation and waste management

A. M. Omer..................................................................................................................................................124

Agricultural Sciences (AS) is an international refereed journal dedicated to the latest agricultural science. The goal of this journal is to keep a record of the state-of-the-art research and promote the research work in these fast moving areas.

Editor-in-Chief
Prof. Daniele De Wrachien

Executive Editor-in-Chief
Prof. M. B. Goli

Editorial Board
Dr. Said Elshahat Abdallah
Prof. Abdulrasoul Alomran
Dr. Aziz Aziz
Dr. Nacer Bellalou
Dr. Oğuz Dolgun
Prof. Carlo Duso
Dr. Dionisios Gasparatos
Engineer John William Gowing
Dr. Ghanshyam D. Heda
Prof. Robert Henry
Prof. Hongqing Hu
Prof. Chung L. Huang
Dr. Chao Liang
Prof. Manyuan Long
Prof. Misopolinos Nikos
Prof. Junhua Peng
Dr. Elena Petrushkina
Dr. V. S. Saravanan
Dr. Johannes Fritz Sauer
Dr. Allan Showler
Dr. Ashok Shrawat
Prof. Ram Singh
Dr. Yong Teng
Prof. Wenjun Zhang

Subject Coverage
This journal invites original research and review papers that address the following issues in agricultural sciences. Topics of interest include, but are not limited to:

- Agricultural Biodiversity
- Agricultural Botany
- Agricultural Ecology
- Agricultural Economics
- Agricultural Electrification and Automation
- Agricultural Entomology
- Agricultural Genomics
- Agricultural Production
- Agricultural Resources
- Agrochemistry
- Agrology
- Agronomy
- Animal Breeding and Nutrition
- Aquaculture
- Biological Engineering
- Breeding Genetics and Pathology
- Crop Physiology and Science
- Dairy Farming
- Energy Agriculture
- Environmental Hydrology
- Fertilization, Breeding and Protection of Plants
- Horticulture
- Husbandry Science
- Irrigation Management
- Modelling of Crop and Animal Systems
- Organic Agriculture
- Plant Breeding Genetics and Pathology
- Plant Nutrition
- Plant Protection
- Security of Genetically Modified Agricultural Organisms
- Soil Science and Soil Land Use
- Soil-Plant Relationships
- Sustainable Rural Development
- Sustainable Rural Development Agricultural Botany
- Theoretical Production Ecology

We are also interested in: 1) Short Reports—2 to 5 pages where the paper is intended to present either an original idea with theoretical treatment or preliminary data and results; 2) Book Reviews—Comments and critiques of recently published books in agricultural sciences.

Notes for Intending Authors
Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.
