

## Special Issue on Oil Crop and Vegetable Oils

### Call for Papers

Oil crops are the base for biodiesel production. In Europe, rapeseed is the most common feedstock for biodiesel production. In the US, Argentina and Brazil, soybean oil is the most dominant biodiesel fuel feedstock. In Indonesia and Malaysia, palm oil is the main feedstock cultivated.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring **oil crop and vegetable oils**. Potential topics include, but are not limited to:

- Oil crop cultivation
- Oil Extraction process
- Oil as biofuel
- Vegetable oils
- Oil utilization
- Inedible oils

Authors should read over the journal's [Authors' Guidelines](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal at [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue – Oil Crop and Vegetable Oils**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	May 26th, 2017
Publication Date	July 2017
