

Special Issue on Agricultural Fertilizer

Call for Papers

Fertilizer, natural or artificial substance containing the chemical elements that improve growth and productiveness of plants. Fertilizers enhance the natural fertility of the soil or replace the chemical elements taken from the soil by previous crops. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in this area of **Agricultural Fertilizer**.

In this special issue, we invite front-line researchers and authors to submit original research and review articles that explore **Agricultural Fertilizer**. In this special issue, potential topics include, but are not limited to:

- Fertilizing and conditioning the soil
- Agriculture nutrient management and fertilizer
- Liquid fertilizers
- Fertilizer storage
- The biological fertilizer
- Organic fertilizer

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Agricultural Fertilizer**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	April 30th, 2021
Publication Date	June 2021
