

Special Issue on Crops, Soil and Nutrients

Call for Papers

The Crop and Soil Sciences major is based upon the continuously expanding knowledge base of the biological and physical sciences and the utilization of those sciences to produce food and fiber of high quality on a competitive basis to promote sustainability, and to obtain increased nutrient–use efficiency, proper land use, increased plant adaptation to environmental and other stresses, decreased soil erosion, and decreased environmental pollution. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in this area of **Crops, Soil and Nutrients**.

In this special issue, we invite front-line researchers and authors to submit original research and review articles that explore **Crops, Soil and Nutrients**. In this special issue, potential topics include, but are not limited to:

- Fertilizers and crops
- Cover crops and soil health
- Soil environment and crop growth
- Soil fertility and management
- Crops and soil microorganisms
- Nutrition of crop growth

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Crops, Soil and Nutrients**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	October 27th, 2023
Publication Date	December 2023
