

Special Issue on Agriculture and Food Science

Call for Papers

Agricultural and Food Science reports on agriculture and food research related to primary production and which have a northern dimension. The fields within the scope of the journal include agricultural economics, agricultural engineering, animal science, environmental science, horticulture, plant and soil science and primary production-related food science. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in this area of **Agriculture and Food Science**.

In this special issue, we invite front-line researchers and authors to submit original research and review articles that explore **Agriculture and Food Science**. In this special issue, potential topics include, but are not limited to:

- Food processing and quality
- Global food and nutritional insecurity
- Food technology and balancing agricultural outputs across food, feed, fibre and fuel
- Food processing and manufacturing
- Food nutrition and health
- Agricultural and food economics and policy
- Food chemistry and physics
- Food safety, nutrition, and health
- Public health in relation to the condition of food and nutritional security
- Sustainable agriculture and food systems

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Agriculture and Food Science**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	April 26th, 2024
Publication Date	June 2024
