Special Issue on Agricultural Biodiversity

Call for Papers

Agricultural biodiversity is the diversity of crops and their wild relatives, trees, animals, microbes and other species that contribute to agricultural production. This diversity - which results from thousands of years of interactions among people and the environment - is a key component of healthy diets and human health. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in this area of **agricultural biodiversity**.

In this special issue, we invite front-line researchers and authors to submit original research and review articles that explore **agricultural biodiversity**. In this special issue, potential topics include, but are not limited to:

- Genetic resources for food and agriculture
- Components of biodiversity that support ecosystem services
- Abiotic factors
- Importance of agricultural biodiversity
- Special nature of agricultural biodiversity
- Crop and crop-associated biodiversity
- Pests, predators and parasitoids
- Soil biodiversity and bacterial and mycorrhizal resources
- Genetic aspects of crop domestication
- Agricultural biodiversity and the provision of ecosystem services
- Agricultural biodiversity, resilience, adaptation and climate change

Authors should read over the journal's <u>For Authors</u> carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's <u>Paper Submission System</u>.

Please kindly specify the "Special Issue" under your manuscript title. The research field "Special Issue - *Agricultural Biodiversity*" should be selected during your submission.

Special Issue timetable:

Submission Deadline	August 19th, 2024
Publication Date	October 2024

Guest Editor:

Agricultural Sciences

ISSN Online: 2156-8561
