

Special Issue on
Innovative Methods for Teaching and Learning
Call for Papers

Teaching and learning is a process that includes interactive activities as learners work toward their goals and incorporate new knowledge, behaviors, and skills to enrich learning experiences. Using innovative methods of teaching is a crucial skill for teachers and education staff.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Innovative Methods for Teaching and Learning**. Potential topics include, but are not limited to:

- Effect of teaching strategies
- Smart techniques and digital learning
- Educational technology and innovation
- Active learning
- Integrated approaches of teaching
- Blended learning
- Skills development
- Innovation design and management
- Innovative learning environment
- Exploring learning experiences
- Performance and proficiency
- Achievements and learning
- Game-based learning

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Innovative Methods for Teaching and Learning**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	December 31st, 2020
Publication Date	February 2021
