

Special Issue on
Creativity, Excellence and Innovation in Education
Call for Papers

Creativity and innovation are at the heart of a powerful shift occurring in our lives as society moves from an industrial economy to a knowledge economy. Creative thinking is often equated with originality, the generation of ideas, and with a range of problem-solving strategies. Creativity and innovation in education let students to become aware of their innate creativity and helps them become creative professionals through the implementation of creative thinking in workplace.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Creativity, Excellence and Innovation in Education**. Potential topics include, but are not limited to:

- Creativity, talent and excellence
- Excellence and innovation in teaching and learning
- Creative teachers and effective teaching
- Educational leadership
- Creative classrooms
- Motivation and achievements
- Competency-based education
- Critical and creative thinking
- Innovative collaborative learning
- Creative leadership in schools
- Problem-solving techniques
- Innovative educational technology
- Creative learning environments
- Effective instructional strategies

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Creativity, Excellence and Innovation in Education**” should be chosen during your submission.
