**Special Issue on**  
**Excellence, Innovation & Creativity in Education**  
**Call for Papers**

Excellence, Innovation & Creativity in Education focuses on exploring ways to foster creativity and innovation in educational settings to promote excellence and improve educational outcomes. It involves the study of teaching and learning strategies that encourage creativity, critical thinking, problem-solving, and innovation among students and teachers. The goal is to identify and develop educational practices and policies that enhance the quality of education, increase student engagement, and promote lifelong learning. This topic also examines the role of technology in education, teacher professional development, and assessment methods that measure creativity and innovation in education.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Excellence, Innovation & Creativity in Education**. Potential topics include, but are not limited to:

- Excellence and innovation in teaching and learning
- Creative classrooms and learning environments
- Curriculum design and development
- Teacher education and professional development
- Creative teachers and effective teaching
- Creativity and motivation in education
- Critical and creative thinking
- Innovation in early childhood education
- Pedagogical approaches and instructional strategies
