

## Special Issue on Case Reports on Cardiology

### Call for Papers

"Case Reports on Cardiology" is an academic field that focuses on detailed clinical observations and analyses of rare or unique patient cases related to cardiovascular health. These reports provide valuable insights into diagnostic tools, treatment approaches, and potential complications in cardiology. By examining individual cases, researchers aim to enhance medical knowledge, improve patient care, and contribute to the development of innovative strategies in the field of cardiology.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Case Reports on Cardiology**. Potential topics include, but are not limited to:

- Interventional cardiology
- Electrophysiology
- Heart failure
- Congenital heart disease
- Coronary artery disease
- Cardiovascular imaging
- Rhythm disorders
- Hypertension
- Cardiovascular genetics
- Cardio-oncology

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the "**Special Issue**" under your manuscript title is supposed to be specified and the research field "**Special Issue – Case Reports on Cardiology**" should be chosen during your submission.

According to the following timetable:

|                     |                 |
|---------------------|-----------------|
| Submission Deadline | March 5th, 2024 |
| Publication Date    | May 2024        |

For publishing inquiries, please feel free to contact the Editorial Assistant at

**Scientific Research**  
*Open Access*

**Case Reports**  
**in Clinical Medicine**  
ISSN Online: 2325-7083
