

Special Issue on Case Reports in Neurological Medicine

Call for Papers

"Case Reports in Neurological Medicine" involves the detailed analysis and documentation of unique clinical cases related to neurological disorders. This academic topic aims to contribute to medical knowledge and understanding by sharing insights from unusual or rare patient presentations, diagnostic challenges, innovative treatment approaches, or significant clinical outcomes. These reports provide valuable information for healthcare professionals, fostering the exchange of ideas and promoting advancements in the field of neurological medicine.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Case Reports in Neurological Medicine**. Potential topics include, but are not limited to:

- Stroke
- Epilepsy and seizures
- Movement disorders
- Neurodegenerative diseases
- Epilepsy
- Neuro-oncology
- Cerebrovascular diseases
- Peripheral nerve disorders
- Neuroinfectious diseases
- Pediatric neurology and rare cases
- Neuroimaging and diagnostic challenges
- Neurosurgical cases
- Neurotoxicology
- Neurological emergencies

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the "Special Issue" under your manuscript title is supposed to be specified and the research field "**Special Issue – Case Reports in Neurological Medicine**" should be chosen during your submission.

According to the following timetable:
