## Special Issue on Urban Planning, Design and Development

### Call for Papers

Urban planning is to standardize the development and construction of cities, to study the future development of the city, the rational layout of the city, and the comprehensive deployment of the comprehensive arrangement of various urban construction projects. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of **Urban Planning, Design and Development**.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Urban Planning, Design and Development**. Potential topics include, but are not limited to:

- Land use planning
- Infrastructure management
- Urban policy and planning
- Urban planning and design
- Urban regeneration and renewal
- Sustainable urban development
- Local and regional economic development
- Urban environment and health

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Urban Planning, Design and Development**” should be selected during your submission.
