

Special Issue on
Sustainable Development and Urbanization

Call for Papers

Urbanization refers to the process of people moving from rural areas to cities, leading to the growth and development of urban areas. It is a result of industrialization, economic development, and globalization. Sustainable development is a type of development that meets the needs of the present without compromising the ability of future generations to meet their own needs. Sustainable urban development involves the creation of urban areas that are socially, economically, and environmentally sustainable. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of Sustainable Development and Urbanization.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Sustainable Development and Urbanization**. Potential topics include, but are not limited to:

- Green cities
- Urban planning
- Public transportation
- Smart growth
- Compact cities
- Renewable energy
- Zero-emission vehicles
- Efficient buildings
- Circular economy
- Inclusive cities
- Transit-oriented development
- Livable communities
- Sustainable infrastructure
- Green economy
- Carbon neutrality

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Sustainable Development and Urbanization**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	September 12th, 2024
Publication Date	November 2024
