

TABLE OF CONTENTS

Volume 2 Number 3

March 2010

Modeling and Investigation of the Wall Thickness Changes and Process Time in Thermo-Mechanical Tube Spinning Process Using Design of Experiments

A. R. F. Nahrekhajaji, M. Ghoreishi, E. S. Tashnizi.....141

A Methodology for Filtering and Inversion of Gravity Data: An Example of Application to the Determination of the Moho Undulation in Morocco

V. Corchete, M. Chourak, D. Khattach.....149

Determination of a Gravimetric Geoid Solution for Andalusia (South Spain)

F. Manzano, V. Corchete, M. Chourak, G. Manzano.....160

Modifications in the Stress Field of a Long Inclined Fault Caused by the Welded-Contact Boundary Conditions across the Interface between Two Elastic Half-Spaces

S. Rani, S. J. Singh.....166

Structure and Properties of Sn-9Zn Lead-Free Solder Alloy with Heat Treatment

M. Hammam, F. S. Allah, E. S. Gouda, Y. E. Gendy, H. A. Aziz.....172

Tunable Bandwidth Third Order Switched-Capacitor with Multiple Feedbacks Filter for Different Center Frequencies

G. N. Shinde, S. R. Bhagat.....179

Applications of High-Efficiency Abrasive Process with CBN Grinding Wheel

Y. L. Hou, C. H. Li, Y. Zhou.....184

The Effect of Near-Wall Vortices on Wall Shear Stress in Turbulent Boundary Layers

S. X. Guo, W. P. Li.....190

An Improved Parameters Extraction Method for Dumbbell-Shaped Defected Ground Structure

Y. C. Guo, Q. Wang.....197

Study on the Law of the Movement and Damage to Slope with the Combination of Underground Mining and Open-Pit Mining

G. F. Ren, X. K. Fang.....201
