

Special Issue on Obesity, Nutrition and Health

Call for Papers

Obesity or overweight is a medical condition in which excess body fat has accumulated to the extent that it may have a negative effect on health. Maintaining a healthy weight is important to avoid life-threatening medical conditions and to prolong an active lifestyle. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of Obesity, Nutrition and Health.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Obesity, Nutrition and Health**. Potential topics include, but are not limited to:

- Bariatric surgery
- Childhood obesity
- Diabetes and obesity
- Genetics of obesity
- Hormones and obesity
- Liposuction
- Obesity and cancer
- Obesity complications
- Physical activity and diet
- Weight control

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Obesity, Nutrition and Health**” should be selected during your submission.

Special Issue Timetable:
