Editor-in-Chief

Prof. Valentine Udoh James

Clarion University of Pennsylvania, USA

Editorial Board

Dr. Riccardo Buccolieri

University of Salento, Italy

Prof. Jianmin Chen

Fudan University, China

Prof. Peter G. Flood

University of New England, Australia

Prof. Yehia Hafez

King Abdulaziz University, Saudi Arabia

Prof. Benedict Hozor

Eastern Michigan University, USA

Prof. Sabah A. Ismail

University of Kirkuk, Iraq

Prof. M. A. Khalifa

Menoufia University, Egypt

Dr. Juan Ma

Fayetteville State University, USA

Dr. Amirhomayoun Saffarzadeh

Kyushu University, Japan

Prof. V. I. Solomatin

Russian Academy of Nature Science, Russia

Dr. Mustafa Din Subari

Universiti Teknologi Malaysia, Malaysia

Prof. Leiming Yin

Chinese Academy of Sciences, China

Dr. Xiaochun Zhang

Carnegie Institution for Science, USA

Prof. Qixing Zhou

Nankai University, China

Table of Contents

Volume 4 Number 12

December 2016

Landslide Susceptibility Assessment Using Conditional Analysis and Rare Events Logistics Regression: A Case-Study in the Antrodoco Area (Rieti, Italy)	
V. Chiessi, S. Toti, V. Vitale.....	1
Car Insurance Plans Could Make a Society Safer	
M. Zand, A. Samimi, K. Khavarian.....	22
Assessing the Seawater Intrusion Due to Beach Wells in the Desalination Plant	
Y. Mogheir.....	37
Evaluating the Stability of Indigenous Akwadum Soil with Cassava Peel Ash and Quarry Dust	
C. Nyamekye, S. A. Oforu, A. Fordjour, T. Ayitey-Adjin.....	48
Small Scale Spatio-Temporal Variabilities in Soil Nitrogen, Leaf Nitrogen, and Canopy Normalized Difference Vegetation Index of Cotton	
X. H. Yin.....	56
Geostatistical Analyses of Field Spatial Variability of Cotton Yield	
X. H. Yin.....	75
Particulate Matter Concentrations in the Vicinity of an Incinerator	
K. W. Endjambi, O. S. Ameh, N. Kgabi, I. Maposa, N. Hamatui	88
Evaluation of GSMaP Daily Rainfall Satellite Data for Flood Monitoring: Case Study—Kyushu Japan	
M. D. Setiawati, F. Miura.....	101
Physicochemical Characteristics of Corriente River, Argentine, Period 1998-2014	
J. D. R. Díaz, D. C. Fechner, R. M. I. Goyechea, R. A. Martínez, F. A. Vazquez.....	118
Analysis on Variation Characteristics of Agro-Climatic Resources in Weixian County, China in Recent 54 Years	
L. D. Xiang, Z. T. Liu, X. J. Li.....	126

Assessment of Groundwater Suitability for Drinking and Irrigation Purpose in the Dimbhe Command Area of River Ghod, Maharashtra, India

G. Pillai, I. A. Khan.....142

Trends of Extreme Temperature and Rainfall Indices for Arid and Semi-Arid Lands of South Eastern Kenya

S. N. Marigi, A. K. Njogu, W. N. Githungo.....158

Call for Papers

Journal of Geoscience and Environment Protection (GEP)

ISSN 2327-4336 (Print) ISSN 2327-4344 (Online)
<http://www.scirp.org/journal/gep>

Journal of Geosciences and Environment Protection (GEP) is an international journal dedicated to the latest advancement of Geoscience and Environment Protection. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of Geoscience and Environment Protection. All manuscripts must be prepared in English, and are subject to a rigorous and fair peer-review process.

Subject Coverage

This journal invites original research and review papers that address the following issues. Topics of interest include, but are not limited to:

Environmental Protection

- Air Pollution
- Chemical Pollution
- Climate Change
- Disasters Management
- Environmental Earth Sciences
- Environmental Geology and Rehabilitation
- Environmental Law and Policies
- Environmental Risk
- Global Environmental Protection Technology
- Global Warming
- Landfill Waste Management
- Mineral Processing, Waste Management and Recycling
- Nuclear Energy and Environmental Protection
- Pollution Control and Technologies
- Soil Environment and Soil Science in Other Disciplines
- Sustainability of Resources and Environment
- Waste Water Management and Aquaculture
- Water Engineering

- Water Resources Management and Water Quality

Geoscience

- BioGeomarkers and Their Significance for Astrogeology and Astrobiology
- Crystallography and Mineralogy
- Education and Capacity Building in Geosciences
- Endogenous, Exogenous Petrology and Geochemistry
- Energy and Mineral Deposits
- Geodynamics
- Geoethics
- Geographic Information Science
- Geological Collections and Museology
- Hydrology and Hydrogeology
- International Partnership in Geosciences
- Medical and Forensic Geology
- Meteorites and Planetary Geology
- Natural Hazards
- Paleontology
- Stratigraphy and Sedimentology

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the GEP.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

What is SCIRP?

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
