## Table of Contents

**Volume 7 Number 11 November 2019**

**Ecosystems Services of the Tropical Rain Forest Environment: Lessons from the Cross River National Park, Nigeria**
B. A. Ambe, U. N. Onnoghen.................................................................1

**Effect of Carya cathayensis Sarg Shell Substrate on Yield and Nutrient Amount of Pleurotus geesteranus**
J. P. Zhang, X. B. Li, Y. Ying, X. H. Yao.............................................11

**Identification of Potential Landslide Susceptible Area in the Lesser Himalayan Terrain of Nepal**
K. Pokhrel, B. P. Bhandari..................................................................24

**Assessment of Spring Water Quality in the Rural Watersheds of Western Nepal**
A. Gurung, S. Adhikari, R. Chauhan, S. Thakuri, S. Nakarmi, D. Rijal, B. S. Dongol.........................39

**Quantifying the Effects of Climate Change and Land Management on Vegetation Dynamics from 1982 to 1985 in the Source Region of Three-Rivers, China**
R. Wang, H. Ma................................................................................54

**Characterization of Biofilms and Mineralogical Scale in Underground Injection Well Disposal of Landfill Leachate and Industrial Wastewater Streams**
D. E. Meeroff, B. Shaha, F. Bloetscher, N. Esiobu, B. Mercer, D. McCorquordale, R. Kari, M. Bennett......69

**Seismic Activity and Seismic Cone Tectonics on the West Coast of the United States**
L. J. Chen.........................................................................................92

**Assessing Satellite-Based Precipitation Products to Create Flood Forecasting in the Da River Basin, Vietnam**
L. V. Son, L. N. Chung, B. T. Hai, S. H. Anh, N. D. Quang..........................113

**Analysis of Climate Change and Circulation Features of Frost Days in Hunan Province, China in Recent 67 Years**
Z. Li, Q. L. You, H. W. Liu, Z. H. Yin, L. J. Duan.................................124

**Effect of Meteorological Factors on PM$_{10}$ Concentration in Hanoi, Vietnam**

**Formation of Eskişehir Province Flood Maps with Using of Geographical Information Systems**
Y. Bayazit, R. Bakiş, C. Koç, T. Kaya, N. Özdemir..................................151
How Does Environmental Regulation Affect Carbon Emissions?
S. B. Wang.............................................................................................................................................160

Study of Boundary Layer Height over West Africa
S. Ndao, D. N. Rinelle, D. Badiane, A. Lenouo, S. M. Sall.................................................................179

Characterization of Pyroclastic Deposit from Three Different Areas within Foumbot Region (West-Cameroon): Comparative Studies of Their Effects as Pozzolanic Materials in Mortars and Cement Manufacture
M. A. Mounjouohou, A. Moundi, B. Ntieche, D. Dawai, F. Michel......................................................195

Studies on the Distribution Characteristics of the Cloud-to-Ground Lightning and Its Disasters Prevention in Xinjiang, China in 2017
W. J. Ye, Y. H. Wang, Y. Qian, X. L. Huang, Y. Jiao, Z. Q. Liu..............................................................210

Meteorological Drought Warning Research in Fujian Province, China during 1971-2016
S. M. Li, X. M. Wang, C. L. Gao, X. B. Ye.................................................................................................220

Mapping of Groundwater through the Integration of Remote Sensing and Vertical Electrical Sounding in ASALs: A Case Study of Turkana South Sub-County, Kenya
D. M. Nyaberi, E. Basweti, J. O. Barongo, G. M. Ogendi, P. C. Kariuki..................................................229

Analysis of Low-Altitude Inversion Characteristics of Coal-Fired Power Projects Based on Tethered Balloon Observation
X. J. Gao, Y. Bai, H. W. Tian, F. Ju.............................................................................................................244

Analysis and Extent of Santa Fe River Flooding in North Florida Attributed to Rainfall and Wind Damage Associated with Hurricane Irma
S. Bernardes, L. Manglass, S. T. Bacchus, M. Madden.............................................................................253

PRODUCTION INFORMATION

For manuscripts that have been accepted for publication, please contact:
E-mail: gep@scirp.org
Journal of Geoscience and Environment Protection (GEP) is an international journal dedicated to the latest advancement of Geoscience and Environment Protection. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of Geoscience and Environment Protection. All manuscripts must be prepared in English, and are subject to a rigorous and fair peer-review process.

**Subject Coverage**

This journal invites original research and review papers that address the following issues. Topics of interest include, but are not limited to:

- **Environmental Protection**
  - Air Pollution
  - Chemical Pollution
  - Climate Change
  - Disasters Management
  - Environmental Earth Sciences
  - Environmental Geology and Rehabilitation
  - Environmental Law and Policies
  - Environmental Risk
  - Global Environmental Protection Technology
  - Global Warming
  - Landfill Waste Management
  - Mineral Processing, Waste Management and Recycling
  - Nuclear Energy and Environmental Protection
  - Pollution Control and Technologies
  - Soil Environment and Soil Science in Other Disciplines
  - Sustainability of Resources and Environment
  - Waste Water Management and Aquaculture
  - Water Engineering

- **Geoscience**
  - Water Resources Management and Water Quality
  - BioGeomarkers and Their Significance for Astrogeology and Astrobiology
  - Crystallography and Mineralogy
  - Education and Capacity Building in Geosciences
  - Endogenous, Exogenous Petrology and Geochemistry
  - Energy and Mineral Deposits
  - Geodynamics
  - Geophysics
  - Hydrology and Hydrogeology
  - International Partnership in Geosciences
  - Medical and Forensic Geology
  - Meteorites and Planetary Geology
  - Natural Hazards
  - Paleontology
  - Stratigraphy and Sedimentology

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the GEP.

**Notes for Intending Authors**

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

**Website and E-Mail**

https://www.scirp.org/journal/gep

E-mail: gep@scirp.org
**What is SCIRP?**

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

**What is Open Access?**

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
