# Table of Contents

**Volume 10   Number 8                                   August 2022**

**Climatic and Physiographic Variables to Evaluate *Culex pipiens s.l.* Risk and Habitat**  
M. da Conceição Proença, M. J. Alves, M. T. Rebelo.................................................................1

**The Legal Aspect of Waste Management in Cameroon with Focus on the Buea Municipality**  
E. Albrecht, A. M. A. Nkem, E. Ernest..........................................................................................9

**Phosphorus and Nitrogen Removal by Saturated Vertical-Flow Constructed Wetlands (SVCWs) Type Micro-Pilot Using Shale from Ivory Coast as a Substrate**  

**Assessing the Effects of Land Use/Land Cover Change on Groundwater Recharge in a Sudano-Sahelian Zone: Case of Koda Catchment, Mali, West Africa**  

**3D Slicing of Weighted Index for Reservoir Quality of Lower Miocene Rocks, Belayim Marine Oil Field, Gulf of Suez, Egypt**  
I. M. Al-Alfy, A. M. El-Hawary, H. B. E.-D. Mohammad, M. A. Shaheen, M. Nabih........................................55

**Study on Changes of Microclimate in Greenhouse of *Pleurotus nebrodensis* in Jizhou, Tianjin**  

**Study on Development Law of Complex Fluvial Reservoir under Water**  
S. P. Wang, Y. Lei, J. Tan, P. F. Mu, G. Y. Sun....................................................................................80

**Variations in Soil Physico-Chemical Properties as Influenced by Landuse in a Toposequence**  
A. Arthur, D. Okae-Anti..................................................................................................................98

**Pollution Characteristics and Health Risk Assessment of Heavy Metals in PM$_{2.5}$ during Winter in the Suburb of Cangzhou, China**  
J. Wang, Z. X. Chen, Y. H. Pang, Y. N. Zhao, Y. F. Mao, N. Mao, M. Xu...............................................122

**Polycyclic Aromatic Hydrocarbons in Water: A Review of the Sources, Properties, Exposure Pathways, Bionetwork and Strategies for Remediation**  
I. O. Alaekwe, O. Abba................................................................................................................137
The Analysis of the Asymmetric Precipitation Caused by the No.10 Tropical Cyclone “Damrey” in 2012 Based on Observation and Numerical Simulation
J. Li, J. Q. Liu.................................................................145

Variation Characteristics of Heat Resources in Liaoning Province, China in Recent 60 Years and Their Impact on Meteorological Services
Y. Q. Zhang, L. Ma.............................................................158

K. A. Nyabwisho, F. C. Kahimba.........................................170

A Review of the Distribution Coefficient (Kd) of Some Selected Heavy Metals over the Last Decade (2012-2021)

Distribution Pattern of Dissolved Inorganic Nutrients and Phytoplankton Diversity in River Estuary, Kota Kinabalu Sabah, Malaysia
S. Al Azad, J. L. F. San, E. Saleh.............................................243

Case Study on a Snowfall Event in Beijing from March 17 to 18, 2022
X. Zhang, G. W. Shang........................................................259

Geospatial Analysis of Flood Vulnerability Levels Based on Physical Characteristics and Resilience Capacity of Peri-Urban Settlements in Nigeria

Spatial Transformations and Urban Conservation of Religious-Historic Towns: A Case of Vrindavan, India
S. Kapoor, V. Sehgal, M. Mathur..............................................289

Assessment of Hydrological Drought Using the Standardized Streamflow Index (SSFI): A Case Study of the Tien Yen River Basin of Quang Ninh Province, Vietnam
N. Van Hieu, N. Van Tuan, N. K. Bang, P. H. Hai, L. V. Ha, T. T. Hoa.................................................................309

Delineation of Near Surface Water Flow Path of Wahawa Geothermal Field by Using 2D Inversion of Resistivity Data
S. A. Samaranayake, N. De Silva, U. Dahanayake, H. O. Wijewardane, N. D. Subasinghe.............................................327

Dietary Intake, Carcinogenic and Non-Carcinogenic Risk Potentials of Lead, Cadmium, Mercury and Arsenic Exposure via Consumption of Dried Crayfish in Calabar, Nigeria
Spatial Distribution of Soil Moisture Content and Tree Volume Estimation in International Institute of Tropical Agriculture Forest, Ibadan, Nigeria

A. A. Alo, C. F. Agbor, A. Jebiwott, O. Temiloluwa

Environmental State of a Harbor in Terms of Waters Renewal. A Case Study for a Fishery Harbor in Thessaloniki Gulf

Y. Savvidis, S. Mamtsadeli

**Disclaimer of liability**
Statements and opinions expressed in the articles and communications are those of the individual contributors and not the statements and opinion of Scientific Research Publishing, Inc. We assume no responsibility or liability for any damage or injury to persons or property arising out of the use of any materials, instructions, methods or ideas contained herein. We expressly disclaim any implied warranties of merchantability or fitness for a particular purpose. If expert assistance is required, the services of a competent professional person should be sought.

**PRODUCTION INFORMATION**

For manuscripts that have been accepted for publication, please contact:
E-mail: gep@scirp.org
Journal of Geoscience and Environment Protection (GEP) is an international journal dedicated to the latest advancement of Geoscience and Environment Protection. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of Geoscience and Environment Protection. All manuscripts must be prepared in English, and are subject to a rigorous and fair peer-review process.

Subject Coverage

This journal invites original research and review papers that address the following issues. Topics of interest include, but are not limited to:

- **Environmental Protection**
  - Air Pollution
  - Chemical Pollution
  - Climate Change
  - Disasters Management
  - Environmental Earth Sciences
  - Environmental Geology and Rehabilitation
  - Environmental Law and Policies
  - Environmental Risk
  - Global Environmental Protection Technology
  - Global Warming
  - Landfill Waste Management
  - Mineral Processing, Waste Management and Recycling
  - Nuclear Energy and Environmental Protection
  - Pollution Control and Technologies
  - Soil Environment and Soil Science in Other Disciplines
  - Sustainability of Resources and Environment
  - Waste Water Management and Aquaculture
  - Water Engineering
  - Water Resources Management and Water Quality

- **Geoscience**
  - BioGeomarkers and Their Significance for Astrogaeology and Astrobiology
  - Crystallography and Mineralogy
  - Education and Capacity Building in Geosciences
  - Endogenous, Exogenous Petrology and Geochemistry
  - Energy and Mineral Deposits
  - Geodynamics
  - Geoethics
  - Geographic Information Science
  - Geological Collections and Museology
  - Geophysics
  - Hydrology and Hydrogeology
  - International Partnership in Geosciences
  - Medical and Forensic Geology
  - Meteorites and Planetary Geology
  - Natural Hazards
  - Paleontology
  - Statistics and Data Analysis in Geology
  - Stratigraphy and Sedimentology

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the GEP.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

Website and E-Mail

https://www.scirp.org/journal/gep    E-mail: gep@scirp.org
What is SCIRP?
Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?
All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
