

Special Issue on Waste Disposal and Management

Call for Papers

Environmental pollution is the major problem associated with rapid industrialization, urbanization and rise in living standards of people. Increasing of the amount of solid waste and the pressure what it has on the environment, impose the need to introduce advanced approach to effectively managing of solid waste. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of **Waste Disposal and Management**.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Waste Disposal and Management**. In this special issue, potential topics include, but are not limited to:

- Agricultural waste water treatment
- Industrial wastewater treatment
- Sewage treatment
- Radioactive waste treatment
- Solid waste treatment
- Waste Sorting and Segregation
- Composting, gasification, pyrolysis and incineration
- Waste management systems

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue - Waste Disposal and Management**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	June 30th, 2021
Publication Date	August 2021
