

Special Issue on Environmental Quality and Assessment

Call for Papers

Environmental monitoring and Assessment is defined as process of methodical sampling of air, water, soil, Noise and ecosystem in order to observe and research the environment and Testing in Laboratory. Environmental monitoring helps us to identify effects of pollution and educate public to create awareness of environmental conditions. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of **Environmental Quality and Assessment**.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Environmental Quality and Assessment**. In this special issue, potential topics include, but are not limited to:

- Environmental policy: protection and regulation
- Air as an environmental quality
- Effects of deteriorating air quality
- Environmental pollutants
- Water as an environmental quality
- Effects of water pollution
- Land as an environmental quality
- Health impact of environmental quality
- Environmental quality prediction
- Environmental quality monitoring
- Ecological risk assessment
- Environmental models, modules, and datasets
- Organic compounds in the environment
- Bioremediation and biodegradation
- An indoor environmental quality assessment
- Monitoring and assessment of environmental quality

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue - Environmental Quality and Assessment**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	November 23rd, 2022
Publication Date	January 2023
