Special Issue on Waste Disposal, Recycling and Management

Call for Papers

Waste poses a threat to public health and the environment if it is not stored, collected, and disposed of properly. The perception of waste as an unwanted material with no intrinsic value has dominated attitudes towards disposal. This study investigates the domestic waste practices, waste disposal, and perceptions about waste and health in an urban community. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of Waste Disposal, Recycling and Management.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring Waste Disposal, Recycling and Management. In this special issue, potential topics include, but are not limited to:

- Developments in waste management
- Agricultural waste water treatment
- Domestic waste disposal practice
- Industrial wastewater treatment
- Sewage treatment
- Hazardous radioactive waste
- Hazardous biological waste
- Radioactive waste treatment
- Solid waste treatment
- Waste Sorting and Segregation
- Incineration method
- Composting, gasification, pyrolysis and incineration
- Waste management systems

Authors should read over the journal’s For Authors carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal’s Paper Submission System.

Please kindly notice that the “Special Issue” under your manuscript title is supposed to be specified and the research field “Special Issue - Waste Disposal, Recycling and Management” should be chosen during your submission.

According to the following timetable:

<table>
<thead>
<tr>
<th>Submission Deadline</th>
<th>November 30th, 2022</th>
</tr>
</thead>
<tbody>
<tr>
<td>Publication Date</td>
<td>January 2023</td>
</tr>
</tbody>
