

Special Issue on New, Green and Safe Chemicals

Call for Papers

Green chemistry focuses on the design of chemical products and processes that reduce or eliminate the generation of hazardous substances, which reduces the long-term side effect consequences to the planet. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of New, Green and Safe Chemicals.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **New, Green and Safe Chemicals**. Potential topics include, but are not limited to:

- Agrochemicals & pesticides
- Alternative and renewable reagents
- Bio-based materials
- Chemicals and toxics
- Design for degradation
- Less hazardous chemical syntheses
- New materials and chemicals
- Pollution prevention
- Renewable chemicals/materials
- Safer chemicals in cleaning products
- Safer chemistry for accident prevention
- Safer solvents and auxiliaries

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - New, Green and Safe Chemicals**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	July 22nd, 2024
Publication Date	September 2024
