

Special Issue on Sexual and Reproductive Medicine

Call for Papers

Sexual & reproductive health is a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity, in all matters relating to the reproductive system and to its functions and processes. It implies that people are able to have a satisfying and safe sex life and that they have the capability to reproduce and the freedom to decide if, when and how often to do so. Sexual and reproductive health is a state of physical, mental and social well-being in relation to sexuality. It requires a positive and respectful approach to sexuality and sexual relationships.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Sexual and Reproductive Medicine**. Potential topics include, but are not limited to:

- Reproductive system, fertility and pregnancy
- Maternal and reproductive health
- Assisted reproduction
- Male infertility
- Polycystic ovarian syndrome
- Genetic problems
- Sexual dysfunction
- Reproductive surgery
- Epidemiology
- Disease prevention and control
- Sexually transmitted infections
- Reproductive health and public health
- Adolescent gynaecology
- HIV, sexuality and reproduction
- Women, gender, and sexuality
- Sex and relationships
- Social and cultural aspects
