Special Issue on Health and Quality of Life

Call for Papers

Health and Quality of Life focuses on understanding and assessing the physical, mental, and social well-being of individuals and populations. It explores the multidimensional aspects of health, including how it is perceived, measured, and influenced by various factors. Researchers in this field investigate the overall health status of individuals and communities, examining factors such as disease prevalence, mortality rates, and health-related behaviors. They also delve into subjective measures of health, including individuals' perceptions of their own well-being and their ability to engage in daily activities. The academic topic of Health and Quality of Life encompasses the multidimensional aspects of well-being. It involves understanding and assessing the physical, mental, and social dimensions of health and explores the impact of various determinants on individuals' overall quality of life. Through research in this field, insights can be gained into improving health outcomes, addressing health disparities, and enhancing individuals' overall well-being.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on Health and Quality of Life. Potential topics include, but are not limited to:

- Health-related quality of life
- Quality of life model
- Quality of life after surgery
- Chronic disease management and QOL
- Quality of life in cancer patients
- Mental health and well-being
- Aging health and quality of life
- Healthy behaviors, disease prevention and quality of life
- Health promotion and behavior change
- Patient reported outcomes
- Social determinants of health
- Occupational health and safety
- Health disparities and equity
- Global health and development

Authors should read over the journal’s For Authors carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal’s Paper Submission System.
Please kindly notice that the “Special Issue” under your manuscript title is supposed to be specified and the research field “Special Issue – Health and Quality of Life” should be chosen during your submission.

According to the following timetable:
