## Special Issue on Health Informatics

### Call for Papers

Health Informatics is the branch of medical science and computer science that deals with the application of information technology and data science in healthcare and public health. It involves the collection, storage, analysis, and dissemination of health information to support decision-making in health care delivery, research, and policy-making. Health informatics research may cover a broad range of topics, from the design and evaluation of electronic health records (EHRs) to the use of machine learning algorithms to predict disease outbreaks or personalize treatments. Health Informatics is an important discipline that has applications in healthcare delivery, public health, research, policy-making, and other related fields. Understanding health informatics is crucial for developing effective strategies to improve the quality and efficiency of health care delivery using information technology.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Health Informatics**. Potential topics include, but are not limited to:

- Health information technology systems
- Telemedicine & telehealth
- Health data science and analytics
- Healthcare decision-support systems
- Electronic health records
- Public health informatics
- Computer-aided diagnosis
- Smart health monitoring
- Computational disease modeling
- Artificial intelligence in healthcare
- Internet of medical things

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Health Informatics**” should be chosen during your submission.

According to the following timetable:

---

Submission Deadline	January 10th, 2024
Publication Date	March 2024
