

## Special Issue on Health Services and Policy

### Call for Papers

Health Services and Policy is an academic field that examines the organization, financing, delivery, and quality of health services to improve access, equity, and outcomes. It entails the study of healthcare systems, policies, laws, and regulations that govern the operation of health services and their impact on the population's health. This discipline employs methods from economics, sociology, and political science to analyze the effectiveness of different health interventions and policy implementations. The goal is to provide evidence-based recommendations for health policy and management to ensure that healthcare systems are efficient, effective, and responsive to the needs of diverse populations.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Health Services and Policy**. Potential topics include, but are not limited to:

- Health policy analysis
- Public health services
- Primary care health service
- Community health services
- Health and social services
- Mental health services
- Health economics and financing
- Health insurance and coverage
- Health system reform and innovation
- Quality and safety in healthcare
- Public health policy and management
- Healthcare technology and innovation
- Access to care and health disparities
- Ethics and health policy

**Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).**

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Health Services and Policy**” should be chosen during your submission.

According to the following timetable:
