

## TABLE OF CONTENTS

Volume 2    Number 3

March 2010

### **Knowledge Based Consolidation of UML Diagrams for Creation of Virtual Enterprise**

D. Chanda, D. D. Majumder, S. Bhattacharya.....159

### **Can a Ris/Pacs System Really Improve Execution and Reporting Times?**

A. Tronchi, C. Moretti, L. Oncini, R. Murri.....178

### **Lexicographic Constant-Weight Equidistant Codes over the Alphabet of Three, Four and Five Elements**

T. Todorov, G. Bogdanova, T. Yorgova.....183

### **Efficient Heuristic to Minimize Makespan in Single Machine Scheduling Problem with Unrelated Parallel Machines**

P. Sivasankaran, T. Sornakumar, R. Panneerselvam.....188

### **A New Numerical Method for Solving the Stokes Problem Using Quadratic Programming**

M. Baymani, A. Kerayechian.....199

### **A More Effective Technique of Design Synthesis for MEMS with Expected Performance**

S. X. Chen.....204

### **Adaptive Method for State Estimation of Sound Environment System with Uncertainty and its Application to Psychological Evaluation**

H. Orimoto, A. Ikuta.....212

### **An Evolutionary Algorithm with Multi-Local Search for the Resource-Constrained Project Scheduling Problem**

Z.-J. Chen, C.-C. Chyu.....220

### **Expert Anti-Evaluation Model Based on Matter-Element Analysis in Fund Project Peer-Review System**

H. F. Li, Y. Z. Dang.....227
