IIM is a peer reviewed international journal dedicated to the latest advancement of intelligent information management. The goal of this journal is to keep a record of the state-of-the-art research and promote the research work in these fast moving areas. The journal publishes the highest quality, original papers included but not limited to the fields:

★ Autonomous Agents  ★ Health Information Management
★ Biometric Information Management  ★ Information Security
★ Business Intelligence  ★ Intelligent Data Mining
★ Computational Intelligence  ★ Intelligent Scheduling
★ Database Management  ★ Knowledge Discovery and Management
★ Distributed Intelligent Information Management from Massive Data  ★ Management Information System
★ Earth and Space Science Information Management  ★ Multiagent Systems
★ Education Information Management  ★ Nonlinear System and Control Theory
★ Financial Information Management  ★ Other Related Areas and Applications
★ Forest Information Management  ★ Repositories
★ Smart Grids  ★ Utilized Methods in Applied Math or Statistics

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the IIM.

**What is SCIRP?**

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

**What is Open Access?**

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
