

## TABLE OF CONTENTS

Volume 3    Number 1

March 2013

### Wave Optics and Image Formation in Gravitational Lensing

Y. Nambu.....1

### Riemannian Space-Time, de Donder Conditions and Gravitational Field in Flat Space-Time

G. Liu.....8

### A Synthesis of Fundamental Parameters of Spiral Arms, Based on Recent Observations in the Milky Way

J. P. Vallée.....20

### Approximate Kepler's Elliptic Orbits with the Relativistic Effects

L. L. Jia.....29

### High Energy Studies on the Non-Thermal Emissions from Cassiopeia A & Tycho

M. Bozkurt, T. Ergin, M. Hudaverdi, E. N. Ercan.....34

### Change in Energy of Non-Spinning Black Holes w.r.t. the Change in Mass

D. Mahto, R. N. Mehta, N. Pant, R. K. Sah.....49

### Possible Signs of Life on the Planet Venus

L. V. Ksanfomality.....57

---

The figure on the front cover is from the article published in *International Journal of Astronomy and Astrophysics*, 2013, Vol. 3, No. 1, pp. 57-79 by Leonid V. Ksanfomality.
