

Table of Contents

Volume 6 Number 4

December 2016

Oblateness Effect of Saturn on Halo Orbits of L1 and L2 in Saturn-Satellites Restricted Three-Body Problem

- N. Pushparaj, R. K. Sharma..... 347

A Brief Review of the Amati Relation for GRBs

- W. J. Azzam..... 378

Discovery of Light-Light Scattering (A Test of the Primordial Universe)

- N. N. Mondal..... 384

An Advanced Multi-Band Acousto-Optical Radio-Wave Spectrometer with Multi-Channel Frequency Processing for Astrophysical Studies

- A. S. Shcherbakov, M. C. Dagostino, A. O. Arellanes, E. Tepichin..... 393

Special Relativity in Three-Dimensional Space-Time Frames

- T. Chen, Z. Chen..... 410

On the Gamma-Ray Bursts Origin

- A. G. Syromyatnikov..... 425

Evolutionary Algorithms in Astrodynamics

- M. Misiak..... 435

Analysis of Effect of Oblateness of Smaller Primary on the Evolution of Periodic Orbits

- N. Pathak, V. O. Thomas..... 440

Analysis of Effect of Solar Radiation Pressure of Bigger Primary on the Evolution of Periodic Orbits

- N. Pathak, V. O. Thomas..... 464

Class of Charged Fluid Balls in General Relativity

- A. Sah, P. Chandra..... 494

The Basic Principles of Creation of Habitable Planets around Stars in the Milky Way Galaxy

A. N. Safronov.....512

Effect of Resonance on the Motion of Two Cylindrical Rigid Bodies

M. R. Hassan, B. Kumari, Md. A. Hassan, P. Singh, B. K. Sharma.....555
