Special Issue on Clinical Diagnosis and Treatment

Call for Papers

Clinical diagnosis is a diagnosis made on the basis of medical signs and reported symptoms, rather than diagnostic tests.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Clinical Diagnosis and Treatment**. Potential topics include, but are not limited to:

- Clinical features, diagnosis and management
- Diagnostic techniques and methods
- Medical treatment
- Diagnostic pathology
- Clinical practice
- Clinical assessment
- Clinical analysis
- Statistical methods
- Disease control and clinical prevention
- Clinical risk management
- Diagnostic imaging
- Nuclear medicine
- Clinical research of COVID-19
- Cancer diagnosis
- Novel technologies

Authors should read over the journal’s [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal’s [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Clinical Diagnosis and Treatment**” should be chosen during your submission.
