International Journal of Modern Nonlinear Theory and Application (IJMNTA) is an international peer-reviewed journal dedicated to publishing original papers on all topics related to nonlinear dynamics and its applications such as, electrical, mechanical, civil, and chemical systems and so on. The contributions concerned will be discussion of a practical problem, the formulating nonlinear model, and determination of closed form exact or numerical solutions.

Subject Coverage
This journal invites original papers and review papers that address the following issues in modern nonlinear theory and its applications. The interested topics that may be covered, but not limited to:

- Application of Modern Nonlinear Theory in:
  - Biology
  - Business
  - Chemical Systems
  - Electrical and Power Systems
  - Fluid Mechanics
  - Mechanical Systems
  - Medicine
  - Physics
  - Applied Mechanics
  - Bifurcation and Chaos
  - Chaos Control
  - Classic Control Systems
  - Electrical Drives and Power Electronics
  - Fractal Order Systems
  - High Dimensional Chaos and Applications
  - Intelligent Control Systems (Fuzzy, Neural, Genetic...)
  - Nonlinear Control
  - Nonlinear Differential Equations and Applications
  - Nonlinear Dynamic Stability
  - Nonlinear Dynamics
  - Nonlinear Mathematical Physics
  - Nonlinear Optical Physics & Materials
  - Nonlinear Oscillations
  - Nonlinear Phenomena
  - Nonlinear Science and Numerical Simulation
  - Power Systems and Energy
  - Security in Communication Systems

We are also interested in: 1) Short Reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book Reviews—Comments and critiques.

Notes for Intending Authors
Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submission, please access the website.

What is SCIRP?
Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?
All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
