International Journal of Medical Physics, Clinical Engineering and Radiation Oncology publishes original research and clinical articles relevant to medical physics, clinical/biomedical engineering and radiation oncology. It provides an international forum for research, reviews, education and training on the following topics:

- Biomedical optics
- Clinical trials, outcomes research
- Diagnostic physics and its applications
- Education and training in medical physics, clinical/biomedical engineering, and radiation oncology
- Genetics and tissue engineering
- Hadron-therapy
- Measuring systems, digital signal processing, and medical instrumentation
- Medical imaging
- Molecular imaging
- New technologies development and applications
- Nuclear medicine
- Professional issues in medical physics, clinical/biomedical engineering, and radiation oncology
- Radiation detection, protection, shielding, and radiation response
- Radiation dosimetry and metrology
- Radiation oncology
- Radiobiology
- Radiotherapy physics and its applications
- Therapies (non-ionising radiation)

Publications may be in the form of a (1) Review Article, (2) Research Article, (3) Short Report, (4) A Rapid Communication, (5) Technical Note, (6) Correspondence, (7) Editorial, (8) Special Report, (9) Clinical Trials or (10) Advertisements.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.
