

Special Issue on
Advances in Cranio-Maxillo-Facial Surgery
Call for Papers

Cranio-maxillofacial surgery treats many diseases, injuries and defects entire in the entire craniomaxillofacial complex: anatomical area of the mouth, jaws, face, and skull, as well as associated structures.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Advances in Cranio-Maxillo-Facial Surgery**. Potential topics include, but are not limited to:

- Craniomaxillofacial trauma & reconstruction
- Orthognathic surgery
- Craniofacial surgery
- Maxillofacial surgery
- Cleft palate repair
- Mandible and maxilla osteotomy
- Facial fractures and management
- Nasal reconstruction
- Skull base surgery
- Management of maxillofacial tumors
- Transplantation of revascularized tissues
- Bone graft substitutes
- Regenerative medicine and tissue engineering
- Computer assisted reconstructive surgery
- Laser surgery
- Microsurgery
- Arthroplasty
- Advanced technologies and applications
- Innovative medical device and applications
- 3D printing in medicine

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).
