

Special Issue on Head and Neck Cancers

Call for Papers

Head and neck cancer is a group of cancers that starts in the mouth, nose, throat, larynx, sinuses, or salivary glands. Symptoms for head and neck cancer may include a lump or sore that does not heal, a sore throat that does not go away, trouble swallowing, or a change in the voice. There may also be unusual bleeding, facial swelling, or trouble breathing.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Head and Neck Cancers**. Potential topics include, but are not limited to:

- Diagnosis, evaluation and treatment
- Molecular genetics
- Antitumor immunity
- Treatment of metastatic and recurrent head and neck cancer
- Tumor markers in the diagnosis and follow-ups
- Chemotherapy
- Radiation therapy
- Surgical approaches
- Head and neck squamous cell carcinoma
- Laryngeal cancer
- Thyroid carcinoma
- Nasopharyngeal and oropharyngeal cancer
- Oral cavity cancer
- Prevention, causes, and risk factors
- Supportive care

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Head and Neck Cancers**” should be chosen during your submission.

According to the following timetable:

Scientific Research
Open Access

**International Journal of
Otolaryngology and Head &
Neck Surgery**
ISSN Online: 2168-5460
