

Special Issue on Head & Neck Surgery

Call for Papers

Head & Neck Surgery is an interdisciplinary field that draws on a range of medical specialties and areas of research, such as otolaryngology (ear, nose, and throat), oral and maxillofacial surgery, plastic and reconstructive surgery, and oncology. Research in this field can help to identify new strategies and techniques for managing complex head and neck conditions, and may also help to improve patient outcomes by better understanding the underlying biology and pathogenesis of these conditions.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Head & Neck Surgery**. Potential topics include, but are not limited to:

- Otology and neurotology
- Rhinology & sinus
- Rhinoplasty
- Maxillofacial surgery
- Facial plastic and reconstructive surgery
- Skull base surgery
- Craniofacial surgery
- Facial nerve disease
- Microvascular reconstruction
- Robotic surgery
- Trauma surgery
- Sleep apnea surgery
- Laryngology and voice disorders
- Head and neck oncologic surgery

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Head & Neck Surgery**” should be chosen during your submission.

According to the following timetable:

Scientific Research
Open Access

**International Journal of
Otolaryngology and Head &
Neck Surgery**
ISSN Online: 2168-5460

Submission Deadline	August 28th, 2023
Publication Date	October 2023
