

Table of Contents

Volume 9 Number 10

October 2021

A Family of the Exponential Attractors and the Inertial Manifolds for a Class of Generalized Kirchhoff Equations

G. G. Lin, L. J. Yang.....2399

Growing Sandpile Problem with Local and Non-Local Boundaries Conditions

U. Traoré.....2414

A Path Integral Generalization of Bell Local Hidden Variable Models for Unstable Particles

G. Bei.....2430

External Parameters Affecting on the Photoluminescence of InAs Spherical Layer Quantum Dot

M. Z. Elias.....2439

Mathematical Modeling of Malaria Transmission Dynamics: Case of Burundi

E. Ndamuzi, P. Gahungu.....2447

Application of Stochastic Optimization to Optimal Preventive Maintenance Problem

P. Volf.....2461

GPS Satellite Clock Corrections without Relativity Theory

S. J. G. Gift.....2476

Existence of Sign-Changing Solution with Least Energy for a Class of Schrödinger-Poisson Equations in $\mathbb{R}^3$

Y. L. Tang, Q. F. Zhang.....2483

Application of Lambert W Function to Planck Spectral Radiance Frequencies

S. Gnanarajan.....2500

Neighbor Sum Distinguishing Index of Graphs with Maximum Average Degree

X. Z. Sun.....2511

Control Chaos of a Unidirectionally Traffic Coupled Map Lattice Model

Y. L. Fang.....2527

Quantized Field Theory of Fuzzy Space

A. M. Avdeenko.....2534

Analytical Solution of Nonlinear System of Fractional Differential Equations

E. A. A. Ziada.....2544

Beyond a Quartic Polynomial Modeling of the DNA Double-Helix Genetic Code

H. H. Otto.....2558
