

Special Issue on Brain, Cognition and Behavior

Call for Papers

Research in the cognition, brain, and behavior group includes studies of sensation and perception, learning and memory, attention, mental imagery, conceptual representation, aging, language, emotion, motor control, social cognition, moral decision making, and neurological disorders. In this area, psychologists examine how we perceive the world, acquire new information, retrieve memories, communicate and interact with others, and effect complex cognitive abilities such as creative problem solving.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Brain, Cognition and Behavior**. Potential topics include, but are not limited to:

- Cognitive neuroscience
- Sensation and perception
- Brain science and cognitive psychology
- Behavioral and brain functions
- Neuropsychological assessment
- Language, brain and behavior
- Memory and learning
- Visual and spatial cognition
- Emotion and cognition
- Social cognition
- Decision-making
- Cognitive development
- Mental illness and brain research
- Depression and anxiety
- ADHD

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Brain, Cognition and Behavior**” should be chosen during your submission.

According to the following timetable:

Scientific Research
Open Access

Journal of Behavioral and Brain Science

ISSN Online: 2160-5874

Submission Deadline	October 7th, 2022
Publication Date	December 2022
