

## Special Issue on Medical Research

### Call for Papers

Medical research is a general term for a series of medical branches that are based on modern natural science theories and use biology and other natural science methods to solve medical problems. There are many subdivisions of basic medicine, including cytology, anatomy, physiology, biochemistry, pharmacology, pathophysiology, and etc. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of **Medical Research**.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Medical Research**. Potential topics include, but are not limited to:

- Pharmacology and toxicology
- Medical treatment and diagnosis
- Cancer therapy and imaging
- Neuroendocrinology
- Cardiovascular disease
- Clinical pharmacokinetics
- Viruses and diseases
- 2019-nCoV
- Biomedical engineering
- Biomedical technology

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Medical Research**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	October 27th, 2020
Publication Date	December 2020

**Guest Editor:**

**Scientific Research**  
*Open Access*

**Journal of**  
**Biosciences and Medicines**  
ISSN Online: 2327-509X
