Special Issue on Oral Medicine

Call for Papers

Oral medicine is a specialty of dentistry, which mainly studies the oral care of patients with chronic, recurrent and medically related diseases in the oral cavity and maxillofacial region. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of Oral Medicine.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring Oral Medicine. Potential topics include, but are not limited to:

- Oral biology and dental diseases
- Oral microbiology
- Prevention, oral epidemiology and health
- Periodontology
- Oral care
- Endodontology and traumatology
- Pediatric dentistry
- Oral and maxillofacial surgery
- Oral health
- Operative dentistry

Authors should read over the journal’s For Authors carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal’s Paper Submission System.

Please kindly specify the “Special Issue” under your manuscript title. The research field “Special Issue - Oral Medicine” should be selected during your submission.
