Special Issue on

Clinical Pathology and Laboratory Medicine

Call for Papers

Pathology refers to study of disease in general, which incorporates a wide range of bioscience research fields and medical practices. It primarily concerns the examination of organs, tissues, and bodily fluids in order to make a diagnosis of disease. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of Clinical Pathology and Laboratory Medicine.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring Clinical Pathology and Laboratory Medicine. Potential topics include, but are not limited to:

- Anatomic pathology
- Anatomical pathology
- Cytopathology
- Forensic pathology
- Histopathology
- Immunopathology
- Molecular pathology
- Pathogenesis
- Pathophysiology
- Psychopathology
- Surgical pathology

Authors should read over the journal’s For Authors carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal’s Paper Submission System.

Please kindly specify the “Special Issue” under your manuscript title. The research field “Special Issue - Clinical Pathology and Laboratory Medicine” should be selected during your submission.

Special Issue Timetable:

<table>
<thead>
