Special Issue on

COVID-19 Symptoms, Treatment and Prevention

Call for Papers

COVID-19 is the disease caused by a new coronavirus called SARS-CoV-2. The common symptoms include fever, dry cough, fatigue, loss of taste or smell, nasal congestion, nasal congestion, sore throat, headache, muscle or joint pain, nausea, diarrhea and so on. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of COVID-19 Symptoms, Treatment and Prevention.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **COVID-19 Symptoms, Treatment and Prevention**. Potential topics include, but are not limited to:

- COVID-19 vaccination
- Transmission and incubation
- Clinical pharmacokinetics
- Healthcare and rehabilitation
- COVID-19 signs and symptoms
- Complications of COVID-19
- Prevention, control and treatment

Authors should read over the journal's For Authors carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's Paper Submission System.

Please kindly specify the "**Special Issue**" under your manuscript title. The research field "**Special Issue - *COVID-19 Symptoms, Treatment and Prevention***" should be selected during your submission.

Special Issue Timetable:

Submission Deadline	January 18th, 2024
Publication Date	March 2024
