

## Special Issue on Drug and Disease Management

### Call for Papers

In pharmacology, a drug is a chemical substance that is used to treat, cure, prevent, or diagnose a disease or to promote our health. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of Drug and Disease Management.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Drug and Disease Management**. Potential topics include, but are not limited to:

- Acetaminophen
- Antihypertensive
- Atorvastatin
- Ciprofloxacin
- Doxycycline
- Ibuprofen
- Melatonin
- Metformin
- Methotrexate
- Naloxone
- Tramadol
- Pharmaceutical drugs
- Pharmacokinetics
- Psychoactive drugs
- Cardiovascular drugs
- Drug abuse
- Clinical drug evaluation
- Drug analysis and drug discovery

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Drug and Disease Management**” should be selected during your submission.

Special Issue Timetable:

---

Submission Deadline	March 31st, 2025
Publication Date	May 2025

**Guest Editor:**

**Dr. Marjan Dzeparoski**

Associate Professor, Faculty for Medical Sciences, Stip, Macedonia

Member, Pharmaceutical Chamber of R. Macedonia, Athens Institute for Education & Research and European Federation of Biotechnology (EFB), Macedonia
