Journal of Computer and Communications

Velm algorithm

Add data features

Algorithm parallel computing

Combination of elm and simulation algorithm

Adding fitness evaluation function

Get the real-time evaluation score

Select the algorithm with the highest score.

The algorithm with the highest score is used

Combination of elm and artificial fish swarm algorithm

Adding fitness evaluation function

Get the real-time evaluation score

Unified treatment of voltage, current, temperature and other parameters

Editor-in-Chief
Prof. Zengchang Qin  Beijing University of Aeronautics and Astronautics, China

Editorial Board
Dr. Sangeeta Ahuja  IASRI (ICAR), India
Dr. Rafid Al-Khannak  Buckinghamshire New University, UK
Dr. Orlando Ayala  Old Dominion University, USA
Dr. Ashraf Darwish  The University of Helwan, Egypt
Dr. Vahid Dehghanian  University of Calgary, Canada
Dr. Qiang Duan  Pennsylvania State University Abington College, USA
Prof. Gregory Grigoropoulos  National Technical University of Athens, Greece
Prof. William Edward Hammond  Duke Health Technology Solutions, USA
Dr. Fei Huang  Microsoft, USA
Dr. Dariusz Jacek Jakóbczak  Technical University of Koszalin, Poland
Dr. Krishna P. Kadiyala  University of Texas at Dallas, USA
Dr. Sunny Jung Kim  Dartmouth College, USA
Prof. Mikel Larrea  University of the Basque Country UPV/EHU, Spain
Dr. Khalid Latif  University of Turku, Finland
Prof. Gino Jinho Lim  University of Houston, USA
Prof. Harald Øverby  Norwegian University of Science and Technology, Norway
Dr. Lai Man Po  City University of Hong Kong, Hong Kong (China)
Prof. Sukumar Senthilkumar  Vellore Institute of Technology-University, India
Dr. R. Sharma  Indian Institute of Technology Madras, India
Prof. John A. Springer  Purdue University, USA
Dr. Wei Wei  Xi’an University of Technology, China
Prof. Wei Yu  Towson University, USA
Table of Contents

Volume 8   Number 10   October 2020

Applying Neural Network in Classifying Parkinson’s Disease
Y.-L. Liao ................................................................................................................................. 19

Apply to the Micro Grid Data Limit Learning Algorithm
W. X. Jin, H. M. Li, G. X. Cheng ............................................................................................. 24

Statistical and Machine Learning Methods for Vaccine Demand Forecasting:
A Comparative Analysis
R. T. Alegado, G. M. Tumibay ............................................................................................... 37

Fuzzy Adaptive Tracking Control of Uncertain Strict-Feedback Nonlinear Systems with
Disturbances Based on Generalized Fuzzy Hyperbolic Model
J. X. Shi, Z. J. Yang .................................................................................................................. 50

Improve Image Decoding in Lightweight Environment Using a Coroutines Based Approach
R. Saoungoumi-Sourpele, J. M. Nlong, J.-R. K. Kamdjoug, G. V. Yufui ................................ 60

Hybrid Warehouse Model and Solutions for Climate Data Analysis
H. Hashim .................................................................................................................................... 75

The figure on the front cover is from the article published in Journal of Computer and Communications, 2020, Vol. 8,
No. 10, pp. 24-36 by Wenxing Jin, Haiming Li and Guixue Cheng.

Journal of Computer and Communications

ISSN: 2327-5219 (Print)  ISSN: 2327-5227 (Online)
https://www.scirp.org/journal/jcc

Journal of Communications and Computers is an international journal dedicated to the latest advancement of communications and computers. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of computer and communications. All manuscripts must be prepared in English, and are subject to a rigorous and fair peer-review process. Accepted papers will immediately appear online followed by printed hard copy. The journal publishes original papers including but not limited to the following fields.

Subject Coverage

The journal publishes original papers including, but not limited to, the following fields:

- Applications of Communication Systems
- Artificial Intelligence
- Big Data Search and Mining
- Cloud Computing
- Communication Protocols
- Complex Network Models
- Computational Robotics
- Computer and Network Security
- Computer Graphics and Visualization
- Computer Vision
- Cooperative Communications
- Distributed Computing
- Green Networking
- Grid Computing
- High Performance Computing
- Image Processing
- Information and Communication Theory and Algorithms
- Information and Communication: Security, Privacy, and Trust
- Information Retrieval
- Mobile and Portable Communications Systems
- Mobile and Ubiquitous Networks
- Mobile Computing Systems
- Multimedia/Signal Processing
- Network Modeling and Simulation
- Numerical Methods
- Online Social Network Computing
- Optical Communications
- Self-Stabilization, Autonomic Computing
- Simulation/Analytical Evaluation of Communication Systems

We are also interested in: 1) Short Reports – 2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book Reviews – Comments and critiques.
