Special Issue on Information and Communication Technologies (ICT) and Applications

Call for Papers

Information and Communication Technologies (ICT) and Applications is an academic field that focuses on the study and application of technologies in information processing, communication, and management. It explores how technologies, such as computers, networks, software, and telecommunications, are developed, implemented, and utilized to enhance various aspects of society, including business operations, healthcare, education, government services, and entertainment. Researchers in this field investigate the design, development, deployment, and impact of ICT applications, aiming to understand the potential benefits, challenges, and societal implications of technology-driven innovations.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Information and Communication Technologies (ICT) and Applications**. Potential topics include, but are not limited to:

- Information systems and management
- Data analytics and management
- Cybersecurity, privacy and digital forensics
- E-government and digital transformation
- Intelligent management system
- Digital health and telemedicine
- Multimedia systems and virtual reality
- ICT in online transactions, supply chain management and business models.
- Data analytics and business intelligence
- Internet of Things (IoT) and smart technologies
- Digital marketing and social media
- Mobile computing and applications
- Human-computer interaction and user experience
- ICT for social and economic development
- ICT policy and governance

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the "**Special Issue**" under your manuscript title is supposed to be specified and the research field "**Special Issue – *Information and Communication Technologies (ICT) and Applications***" should be chosen during your submission.

According to the following timetable:

Submission Deadline	April 19th, 2024
Publication Date	June 2024
